November 30, 2016

Dear Mr Dunn,

I was delighted to read the Fresno Bee on November 23rd about Osteopathic School of Medicine stating in Clovis fall of 2019. There has been chronic shortage of physicians in the Central Valley for years and there are not enough primary care and family practice physicians in the Central Valley. I commend you on starting this project and truly believe this is a step in the right direction, long awaited.

I fully support this project and wish you all the best.

Truly,

Hengameh K Akhtar M.D.
