

County of Fresno

BOARD OF SUPERVISORS
SUPERVISOR BRIAN PACHECO – DISTRICT ONE

Florence Dunn, President
California Health Sciences University
120 N. Clovis Ave
Clovis, CA 93612

November 18, 2016

Dear President Dunn

As a representative of the Fresno County Board of Supervisors, District One, I am writing in support of California Health Sciences University's plan to open a Medical School. This project will benefit local students seeking to attend medical school as well as the underserved communities in Fresno County and the Central Valley that have health care needs.

CHSU Medical School will be the first of its kind in the Central Valley. It will provide much needed services to the community as well as create jobs and add physicians to the local workforce. The plan to expand this university to provide 10 graduate colleges and programs in order to give students access to affordable education will improve the lives of Valley residents for decades to come.

I support this project and the positive impact it will have on the communities in the Central Valley.

Sincerely,

Brian Pacheco
Fresno County Board of Supervisors
District I
