RE: CHSU College of Osteopathic Medicine

Dear President Dunn,

As you submit your application to the Commission on Osteopathic College Accreditation, I'm writing to affirm our support for the CHSU College of Osteopathic Medicine. Valley Health Team is committed to meeting with you to discuss the development of clinical clerkships. This includes core clerkships in family medicine.

Valley Health Team Family Medicine Residency Program (VHTFMRP) just received official accreditation from the Accreditation Council on Graduate Medical Education (ACGME). We are committed to accepting qualified graduates of CHSU into our Family Medicine Residency Program.

Finally, we look forward to working with your College of Osteopathic Medicine to provide continuing medical education programs for the enrichment of our medical staff and the local physician community.

Development of the California Health Sciences University College of Osteopathic Medicine is an important step to help address the medically underserved populations of the Central Valley, and we look forward to the possibility of a mutually beneficial, clinical partnership.

Sincerely,

Soyla A. Reyna-Griffin
Chief Executive Officer, VHT
Designated Institutional Officer, VHTFMRP
